1st October 2016

Application farm work in Australia (Canada/New Zealand)

Dear Sir or Madam / Dear farm owners,

My name is Jana, I am 19 years old and I live in Triphausen/Germany. Triphausen is a small/big village/city in the southern/western/eastern/northern part of Germany and I live here with my parents and my older/younger brother/sister.

In 2016 I graduated from school with my A-levels. Before I start studying biology I want to get to know a new country and its people. As English has always been one of my favorite subjects in school and I love reading English books I am looking forward to now live in an English speaking country for some months.

(With my best friend Lisa) I have chosen Australia/New Zealand/Canada to experience the wonderful nature and get to know its people. I am really interested in your daily life on the farm. I have never worked on a farm or a ranch before but I already had side jobs in a pizzeria and I am very motivated and eager to learn. In our garden we have a little vegetable garden and I help my mother with the work there. Last summer we grew tomatoes, salad, cucumber, herbs and strawberries and it is great to see the vegetables grow. I also love animals and would like to learn to work with them.

I am looking forward to see you soon!
